

MODEL EM-5002B

NRR 26dB Noise Cancelling Safety Shooting Earmuffs

CE, ANSI, AS/NZS Certified

Specification

Outer Casing Material: High-rigidity ABS engineering plastic

Compliance Certification: CE EN352-1:2020, ANSI S3.19-1974, AS/NZS S1270:2002.

Ear Pad Material: High-density rebound foam cushion for sound insulation and sealing.

Headband: Adjustable, Padded.

Color: Yellow, Green, Blue, Black or Customized.

Noise Reduction Index: SNR 33dB, NRR 26dB, AS/NZS SLC (80) 32.5dB Class 5.

Powerful Noise Reduction

Double-layer cavity structure optimizes sound wave reflection to achieve a high noise reduction value of SNR 33dB, greatly reducing harsh noises from engines, cutting machines.

Pressure-resistant & Durable Body

The ABS outer shell is impact-resistant, the stainless steel telescopic arm resists fracture and deformation, and the foam ear cushions feature good resilience for a longer service life.

CE, ANSI and AS/NZS certified

Multi-certified with CE, ANSI and AS/NZS standards.
