

MODEL EM7001LPLUS

SNR37dB Safety Protective Earmuffs

ANSI S3.19-1974/EN 352-1:2020 Certified

Specification

Outer Shell Material: Impact resistant ABS plastic.

Noise Reduction Parameter: SNR 37dB, NRR 31dB.

Authoritative Certification: ANSI S3.19-1974, EN 352-1:2020 certified.

Headband Structure: Telescopic stainless steel frame covered with soft TPE.

Core Filling Material: High-density sound-absorbing foam inside ear cups.

Wearing Structure: Adjustable head-mounted design.

Color: Yellow, Green, Blue, Black or Customized.

Strong Noise Isolation

SNR37dB & NRR31dB high-density sound insulation foam, certified by ANSI & EN standard for construction, shooting and industrial noise protection.

Adjustable Comfort Fit

TPE wrapped stainless steel telescopic headband + wide soft ear pads, flexible size adjustment, no head compression for all-day wear.

Solid Practical Build

Impact-resistant ABS outer shell, lightweight integrated structure, reusable for long-term daily work use.
