Performance: High-speed Impact Resistance
Application: Construction site dust and debris protection
Available Lens Color: Clear, Grey, Yellow

Premium Polycarbonate Protective Lens

The polycarbonate lens supports high-speed impact resistance, equipped with anti-fog & anti-scratch coating, and blocks 99.9% UV rays. Optical Class 1 ensures clear vision for long-time wearing.

Frameless Wrap-around Protection Design

Frameless wraparound structure offers comprehensive side protection against dust and flying debris. Lightweight construction reduces pressure for all-day comfortable wear.

Wide Range of Working Scenarios

Available in clear, gray-black and yellow lenses to adapt different lighting environments. Ideal for construction sites to protect eyes from dust and debris.
