

FULL HEAD-TO-TOE

INDUSTRIAL & CONSTRUCTION PPE SOLUTIONS

Certified Safety Equipment for Construction & Industrial Projects

Wholesale Supplier | OEM | GCC Standard | CE & ANSI Certified

Company Profile

Hybuild Material Co. was founded in 2016 with its HQ in Shenzhen, China, managing a complete portfolio of high-grade PPE manufacturing and supply resources. We focus on delivering premium safety protective equipment for construction, oil & gas, mining and infrastructure projects across the UAE, Saudi Arabia and other GCC countries. Benefiting from comprehensive product portfolio and highly efficient supply chain fulfillment capabilities, we are able to deliver complete one-stop head-to-toe safety protection solutions. Our strengths include stable and consistent product quality, strict multi-stage quality inspections, competitive factory wholesale pricing, as well as professional long-term after-sales support. **Hybuild** is committed to delivering high-quality products and services, striving to become your trusted supplier partner throughout the GCC region.

Hybuild's Core Strengths:

- Offering **Factory wholesale price**, even for small businesses
- Complying with **GCC standards**
- Products certified **CE & ANSI standards**
- **Customization** service
- Stable large-batch **mass production capacity**
- **Cost-effective** bulk order pricing
- **Flexible** contract conditions
- One-step procurement solution for **all PPE products**

○ Photo album of PPE products' exhibition hall, producing, warehousing, logistics and delivery.

1. Head Protection

- ABS high-strength Safety Helmet
- PP Impact-resistant Safety Helmet

Key Technical Features

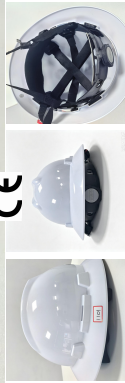

1. 200J heavy impact resistance, pass CE / ANSI Z89.1 test
2. UV resistant & anti-aging ABS material, suitable for outdoor long-term use
3. Multi-point adjustable suspension system, all-day comfortable wearing
4. Custom printing logo & multiple optional shell colors
5. Ventilated design for heat dissipation

Application Scenarios: Building construction, infrastructure engineering, mining, oil & gas fields, general manufacturing factories

Certification Mark: CE / ANSI Z89.1 Certified

CE

- **Product:**
Safety Helmet (V-sharp)
- **Model:** 500
- **Standard:** EN 397:2012+A1:2012
- **Class:** industrial safety helmet
- **Material:** ABS
- **Size:** 52-63cm
- **Color:**
- **Weight:** 415-421g
- **Feature:** Rotary 8-point and comfortable sweat-absorbing inner lining, high strength and temperature resistant,
- **Mark:** Hybuild / OEM / Neutral
- **Manufacturer:** Weiwu Co.

Series: 1101

Made in China

2. Eye, Face & Breath Protection

- Safety Goggles & Glasses
- Full-size Clear Face Shield
- Industrial Mask

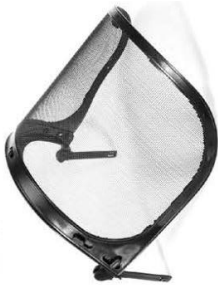

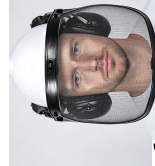

Key Technical Features

1. Anti-fog & anti-scratch high-transparency polycarbonate lens
2. Resist mechanical impact, dust splashing and chemical liquid corrosion
3. Full ventilated frame to reduce internal fogging
4. Ultra-light frame, low pressure to relieve long-time wear fatigue
5. Separated models for grinding, cutting and welding operation
6. Musk: Dust-proof, odor-resistant, splash resistance, skin-friendly, breathable

Application Scenarios: Construction site, machinery workshop, chemical plant, welding production line

Label Text: Impact Resistant · Anti-Fog · Anti-Scratch

  	• Product: Anti-fog Anti-scratch Safety Glasses • Model: SG-71003 • Standard: EN ISO 16321, ANSI Z87.1 • Class: II • Material: Polycarbonate, Nylon • Size: One-size-fit-all • Color:  • Volume: 300pcs/0.15cum • Feature: 4 position adjustable, anti scratch, anti-fog, UV glasses • Mark: Hybuild / OEM / Neutral • Manufacturer: J&S Co.

3. Hearing Protection

- Disposable & Reusable Silicone Ear Plugs (storage box included)
- Overhead Industrial Safety Ear Muffs

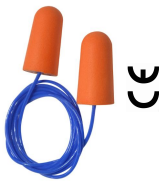

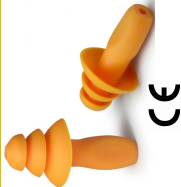

Key Technical Features

1. High NRR noise reduction rating, block heavy industrial mechanical noise
2. Soft hypoallergenic silicone & foam material
3. Ergonomic curved design, no ear compression pain
4. Portable storage box for ear plugs, muffs foldable for easy storage
5. Stable performance for long-time noisy working environment

Application Scenarios: Mechanical processing workshops, construction engineering, airport ground work, traffic maintenance sites

Label Text: High NRR Noise Reduction · Soft Skin-Friendly Material

	Product: Noise Canceling Earplugs (without cord) Model: EC-1001A Standard: CE EN 352-2:2020 Class: III Material: soft PU foam Size: 11*24*5mm Color:  Volume: 4000 pairs/0.12cum Feature: Soft slow-rebound, comfortable, high noise-reduction, SNR 38dB Mark: Hybuild / OEM / Neutral Manufacturer: J&S Co.						
	Product: Noise Canceling Earplugs (with cord) Model: EC-1001A-C Standard: CE EN 352-2:2020 Class: III Material: PU with PVC/Nylon Size: 11*24*5mm Color:  Volume: 2000 pairs/0.12cum Feature: High SNR 38dB, Soft Comfortable, Mark: Hybuild / OEM / Neutral Manufacturer: J&S Co.

4. Hand Protection

- General work Gloves
- Nitrile / Latex Disposable Safety Gloves
- Knitted Latex Dipped General Work Gloves
- High Grade Cut Resistant Safety Gloves
- Welding & High Temperature Resistant Gloves
- Chemical-Resistant Gloves

Key Technical Features

1. Non-slip textured palm surface, wear-resistant for heavy operation
2. Multiple cut resistance grades optional for different risk levels
3. Flame retardant & high temperature resistant for welding work
4. Dense isolation layer against corrosive acid & alkali liquid
5. Flexible fabric, free movement for tool operation

Application Scenarios: General construction handling, mechanical assembly, chemical processing, welding workshop operation

Label Text: Anti-Cut · Heat Resistant · Chemical Barrier Protection

5. Safety Footwear

- Steel Toe / Anti-smash / Anti-static / Anti-slip Safety Work Shoes
- Puncture-resistant / Waterproof industrial safety shoes / boots

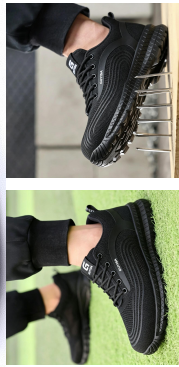

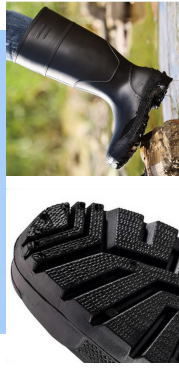

Key Technical Features

1. Built-in steel toe-cap, heavy impact anti-smash protection
2. Steel midsole insert, anti-puncture against sharp nails
3. SRC grade anti-slip deep tread rubber outsole
4. Oil resistant, wear resistant & waterproof upper material
5. CE EN20345 international safety certification

Application Scenarios: Construction sites, underground mines, wet muddy operation zones, heavy-duty factory production

Label Text: Anti-Smash · Anti-Puncture · SRC Anti-Slip · CE EN20345 Certified

6. Protective Garments

- High Visibility Reflective Safety Vest
- Durable Industrial Work Uniform
- Flame Retardant & Welding Protective Garment

Key Technical Features

1. High brightness silver reflective tape, clear visibility for night outdoor work
2. Breathable woven textile, tear & abrasion resistant
3. Optional flame retardant high-temperature resistant treatment
4. Full-body dust & splash isolation with coverall design
5. Meet global high-visibility safety standard specifications

Application Scenarios: Road construction projects, building sites, welding workshops, manufacturing plants

Quality Control & Certifications

We implement strict full-process quality control system for all PPE products, all goods comply with international safety standards.

1. *Global Standard Compliance: CE / ANSI / ISO industrial safety certification*
2. *Raw Material Incoming Inspection: 100% material performance test before production*
3. *Real-time Online Production Monitoring: QC inspectors track every production link*
4. *Finished Product Laboratory Testing: Impact, anti-slip, filtration, tensile strength test*
5. *Final Pre-shipment Inspection: Appearance, size, packing full check before delivery*

Why Choose Hybuild ?

Your Reliable Building Material Partner

a. Full covering Categories One-Stop PPE Sourcing

We provide full coverage of head-to-toe personal protection equipments, can greatly reduce your multi-supplier procurement time cost.

b. Products Customized for GCC Middle East Market

All product specifications, packaging and certification fully adapted to Saudi Arabia, UAE and other GCC engineering project tender requirements.

c. Factory Direct Wholesale Cost Advantage

Stable large batch output, no intermediate dealers markup, offer competitive factory price for bulk orders.

d. All-round Customization Service Support

Support custom brand logo, product color, packaging design and project customized batch orders.

e. Stable Controllable Delivery Cycle

Total order cycle: 25-40 calendar days (Lead-time may subject to case to case)

Hybuild's Order & Delivery Work-Flow

HYBUILD ORDER PROCESS

Total Cycle:
25–40 Working Days

Lead-time depends on material avallability, shipping schedules and local customs inspection.

Note:

- DDP door-to-door rate, FOB and CIF terms are available.
- Should you require any items not listed within this brochure, please contact us to source for you.
- Visit our website www.cn-hybuild.com for further details on our full range of PPE products.
